New Solutions From Hoppe's Clean, Sanitize and Rejuvenate

Overland Park, KS — The Elite line of gun cleaning products from Hoppe's are known for being “green” — biodegradable, non-toxic and safe for the environment. The Elite line has been expanded in 2008 with three new cleaning solutions that include a stain remover, hand cleaner and plastic stock rejuvenator.

Hoppe's Sportsmen's Stain Remover is a non-toxic cleaner that is formulated to remove bloodstains and powder residue from any washable garment. To use, just pre-treat the stains before laundering. It is available in convenient 4- and 16-ounce spray bottles. The new Hoppe's Sportsmen's Hand Cleaner is perfect for use in the field or at the range. It will kill germs and bacteria on contact and removes blood, grease and grime without water. Biodegradable and non-toxic, it comes in a 4-ounce spray bottle.

—More—

The Hoppe's Plastic Stock Rejuvenator puts the shine back into synthetic stocks. Designed to revitalize any plastic, it will also enrich the color of decoys, coolers and other synthetic gear. It's great for touching up stocks after the hunting season and is safe to use on any metal surface. The Plastic Stock Rejuvenator comes in a 2-ounce spray bottle.

Hoppe's Products are now part of the Bushnell Outdoor Accessories. For more information visit www.hoppes.com.
